

The majority of primary school classrooms in Malawi are bare and don't provide the children with a sufficiently stimulating environment.

The idea to decorate primary school classrooms was inspired by the decorations at the Model Childcare Center Umodzi-Mbame.

boNGO introduces these decorations to the primary school classrooms where pictures are drawn relevant to the syllabus of individual classes.

91	92	93	94	95	96	97	98	99	100

The decorations create a more child-friendly environment in the classrooms, help teachers to teach and make it easier for the students to learn.

Matyas F., the local sign-writer who is decorating the classrooms.

Each primary school that wants to benefit from this program must plant and look after 50 fruit trees.
